

SD Plugplants - Sedum

ND Plugplants - Sedum

These plug plants are cultivated at the Nophadrain sedum nursery, 'Sedumdirect', and have a strong, flat root ball. The ND Plug Plants have good stress resistance against sun, heat and drought.

Application

The ND Plug Plants are a component of the Nophadrain Extensive Green Roof System. A coverage of 15 to 20 plants per m² is sufficient.

Species

- Sedum album "Coral Carpet"
- Sedum album "Murale"
- Sedum album "Minor"
- Sedum hispanicum "Glaucum"
- Sedum hybr. "Immergrünchen"
- Sedum kamschaticum
